MURDER SHE BAKED: A DEADLY RECIPE

SYNOPSIS

In the sleepy small town of Eden Lake, Minnesota, baker extraordinaire Hannah Swensen owns The Cookie Jar, a popular bakery where scrumptious treats are prepared and the town’s gossip brews. Along with making delicious baked goods, Hannah has an appetite for getting involved in local crime investigations. With her brother-in-law, Deputy Bill Todd, running against gruff lawman Sheriff Grant in a heated sheriff election, an expecting sister ready to deliver, and a scary encounter with a car thief on her mind, Hannah feels her life has reached its boiling point. But things continue to heat up when she discovers the body of Sheriff Grant — bludgeoned while holding one of her homemade fudge cupcakes — and Bill becomes the prime suspect. Determined to prove Bill’s innocence, Hannah sets out to solve the crime and quickly learns that Grant wasn’t a well-liked man. Meanwhile, handsome detective Mike Kingston opens a parallel investigation.

Stirring up secrets and scandals, Hannah surveys a host of colorful suspects, including disgruntled cops, vindictive wives and a trio of dangerous criminals. Along the way, Hannah finds herself romantically pursued by lovable local dentist Norman Rhodes — who’s more than eager to help with her investigation — and also wonders if she’s falling for Mike as she collaborates with him to crack the case. With romance in the air, and Bill eventually cleared as a suspect, the young baker-turned-sleuth must cook up a recipe for finally catching the elusive killer.

Logline: Hannah (Alison Sweeney) discovers the body of Sheriff Grant – bludgeoned while holding one of her homemade fudge cupcakes. Hannah sets out to solve the crime stirring up secrets and scandals, including disgruntled cops, vindictive wives and a trio of dangerous criminals.
