THE WORLDWIDE LEADER IN *Celebrations*

## **'LOVE ON HARBOR ISLAND'** **Synopsis**

Rising Seattle interior designer Lily Summers (Morgan Kohan) is a small-town girl at heart. Working for a corporate condo company, Lily is on the verge of her dream promotion to be Senior Interior Designer by her 30th birthday. When her boyfriend Bradford (Jeff Gonek), who manages the company, takes Lily to dinner offering her “the proposal of her dreams,” she thinks it’s the promotion she’s wanted until he gets down on one knee. Interrupting the moment, Lily gets a call from back home about her Aunt Maggie (Brenda Matthews) having a bad fall. Lily jumps on the first flight home and promises Bradford a “redo” when she gets back to the city.

As she exits the seaplane at the dock on beautiful Harbor Island, Lily is awkwardly greeted by Marcus (Marcus Rosner), the ruggedly handsome seaplane pilot. She heads to her aunt’s picturesque Harbor Island Inn. There, Lily discovers the inn is a more worn around the edges than she remembered. Aunt Maggie confides in Lily that she needs to sell the inn as it’s become too much work for her now that she’s getting older. Lily wishes she knew her aunt needed help sooner so she could have been there for her. Her thoughts are interrupted as Wish, a spirited Chocolate Lab, bounds through the living room followed by Marcus in hot pursuit. Lily and Marcus share a moment as he apologizes for the interruption and reveals that he lives in the garden suite. He explains that Wish is a rescue dog and is looking for his forever home.

Lily decides to stay for as long as needed to help sell the inn and offers her expertise to stage it, wanting Aunt Maggie to get top dollar as well as find a buyer who will care for it the way her family did over the years. Together, Lily, Aunt Maggie, Christie, her best friend, and Marcus fix up the inn and get it into better shape than it’s been in quite some time. Lily is having the time of her life putting her passion for design to use as she helps her family and works alongside friends, old and new. It’s obvious there’s a chemistry between Lily and Marcus but when Christie mentions this, Lily insists it’s nothing.

Marcus asks Lily to join him as he transports another rescue dog to its forever home and, after an enchanting flight to Anderson Island, Lily shares that her Aunt Maggie raised her after losing her parents as a young girl. The memories were too painful and are the reason for her wanting to leave but admits she’s been flooded with good memories since she’s returned.

Will Lily sell the home and head back to the city? Or will she finally discover that home really is where the heart is.
