Title: **"My Best Friend's Bouquet"**

Format: Two-hour Hallmark Channel Original Movie

Network: Hallmark Channel

Storyline: According to Josie Hughes' family lore, the wedding bouquet always finds the right person. When single Josie catches her friend Emma's bouquet instead of their not-single friend Athena, she fears she's ruined Athena's chances of getting engaged. When Josie starts dating an eligible bachelor she met at the reception, she decides the bouquet is at work. What she doesn't know is her long-time friend Alex secretly holds a torch for her. As Josie clings to the notion that the bouquet is always right, she's missing real-world signs that her perfect match has been in front of her all along.
